EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for the examiner's amendment was given in a telephone interview with Mr. Brian G. Hart, reg. No. 44,421 on December 15, 2005 to cancel claims 24-37 and to amend claims 1, 13 and 39 as follow.

In the claims:

I. In claim 1;

(i) line 3, replace "a sleep queue" with --the multi-dimensional sleep queue--

(ii) line 11, replace "ore" with --or--

II. In claim 13;

(i) line 4, replace "a sleep queue" with --the multi-dimensional sleep queue--

(ii) line 12, replace "ore" with --or--

III. In claim 39;

(i) line 8, replace "a sleep queue" with --the multi-dimensional sleep queue--

(ii) line 16, replace "ore" with --or—

3. Authorization for the examiner's amendment was given in a telephone interview with Mr. Michael Allen, reg. No. 37,582 on April 18, 2006 to amend claims 13-18 and 20-23 as follow.

In the claims:

I. In claims 13-18 and 20-23;

4. (i) replace all occurrences of "computer-readable medium" with --computer storage medium--.

Reasons for Allowance

5. The following is an Examiner's Statement of Reasons for Allowance:

The prior art of record does not expressly teach or render obvious, in the context of the claims taken as a whole as recited in independent claims 1, 13 and 39.

A multi-dimensional execution queue was uncovered in U.S. Patent 6,609,161 (Young) and sleep queue prioritized based on wakeup time and priority was uncovered in Applicant Admitted Prior Art. The references taken alone or in combination does not expressly teach or render obvious, in the context of the claims taken as a whole, as recited in independent claims 1, 13, and 39 in responsive to identifying a thread of execution to insert into a sleep queue for a predetermined amount of time, inserting the thread of execution into a first dimension of the multi-dimensional sleep queue if there is not a thread with a wake-up time equivalent to the predetermined amount of time in the first dimension and if there are one or more different threads of execution with the wake-up time in a second dimension of the multi-dimensional sleep queues, each of the one or more different threads of execution has a thread priority lower than or equal to a thread priority associated with the thread of execution.

Though it is known to use multi-dimensional queue to dispatch processes, and queuing sleeping processes to be re-execute by a processor at a predetermined amount of time, the combined use of a multi-dimensional sleep queue was not uncovered.

Nor was a reference uncovered that would have provided a basis of evidence for asserting a motivation that one of ordinary skill level in the art at the time the invention was made, knowing a multi-dimensional queue to dispatch processes, and queuing sleeping processes would have integrated or modified to yield a multi-dimensional sleep queue to dispatch sleeping processes as recited in the context of the independent claims 1, 13 and 39.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Qing-Yuan Wu whose telephone number is (571) 272-3776. The examiner can normally be reached on 8:30am-5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, William Thomson can be reached on (571) 272-3718. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
